## **DETAILED ACTION**

### ***Status of Application: Claims and Amendments***

Applicant is notified that the amendments put forth on 1/29/2007, as well as the remarks submitted 1/11/2007, have been entered in full.

### ***Response to Amendment***

Applicant is notified that any outstanding objection or rejection that is not expressly maintained in this Office action has been withdrawn in view of Applicant's amendments and upon further consideration of the word "putatively" as it is used in the claims, i.e. see page 2 of the prior Office action.

### ***Specification***

As set forth previously, the disclosure is objected to because it contains an embedded hyperlink and/or other form of browser-executable code, see page 16 for example. Applicant is required to delete the embedded hyperlinks and/or other form of browser-executable code. See MPEP 608.01.

### ***Claim Objections***

As set forth previously claim 235 is objected to because of the following informalities: the phrase "based its" in claim 235(2) appears to be missing the word "on", i.e. "based on its". Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 235-286 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 235-243 and 245 (and dependent claims) require a polypeptide “contained in” SEQ ID NO: 4 it is unclear what limitations the phrase “contained in” places on the claims. It is suggested that the claim read “polypeptide of SEQ ID NO: 4”.

Claim 246 requires that the polypeptide is expressed by a cell. As a polypeptide can be expressed by a cell and then purified or, alternatively, expressed by the cell and used without purification, it is unclear what the claims are intended to encompass.
